

AGES 6 AND UP

LOGIC LINKS

Use the clues.
Arrange the chips.
Solve the puzzle!

160+ Puzzles

INSTRUCTIONS AND ANSWERS

COMPONENTS:

166 puzzles on 78 cards, 32 chips, instructions.

INSTRUCTIONS:

Each Logic Links puzzle is categorized by one of four levels, which identifies difficulty of the puzzle and the shape of the solution:

BEGINNER PUZZLES (PURPLE) form a single row of chips.

INTERMEDIATE PUZZLES (GREEN) form a rectangle consisting of two rows of chips.

ADVANCED PUZZLES (RED) form a square of three rows with three chips in each row.

EXPERT PUZZLES (BLUE) form a circle of seven, eight or nine chips.

OVERVIEW:

Each Logic Links puzzle indicates which colored chips to use. Use the clues to arrange the chips and solve the puzzle. There is only one correct answer. Some helpful hints for interpreting the clues:

- Between does not imply order; for example, “A yellow chip is between a blue chip and a green chip” could mean **BYG** or **GYB**.
- “One chip does not touch another chip” means the chip does not touch another chip on the sides, top, or bottom. The chips may touch on a diagonal, unless otherwise stated.
- In the Answers, “K” means a black chip and “B” means a blue chip.

Enjoy the puzzles as you let your logic loose!
